

* more (bizarre) ways to look younger

1. LinC Medi Therapeutics (LMT) It uses electrical impulses to open up skin channels so that active ingredients with big molecules can penetrate the skin. Anti-ageing ingredients used include Acetylhexapeptide-3, a biosynthetic polypeptide used to reduce deep wrinkles, ascorbic acid for its high antioxidant capacity and HA. Four to six sessions are recommended for the treatment to be effective. Results last up to six months.

COST: \$380 per session
