WHAT'S SPECIAL ABOUT IT Dr Wong customises products to suit her patients' needs by varying the percentages of ingredients like vitamins A, C and E. The 50-product line includes sunblock, eye and anti-ageing creams. She works with a company in the US to develop the products.
PRICE RANGE \$50 for an anti-acne cream to \$600 for an eye cream.

WHY DO IT Previous skincare lines that she used to treat patients with did not always provide the desired results. So she started her own line to have the option of adjusting the ingredients to the needs of her patients.

#1 BEAUTY TIP "Apply sunblock, carry an umbrella whenever you're outside and avoid taking hot baths and going for sauna sessions. Heat and sunlight cause pigmentation and open pores."
